YOEMEN PRACTICE TO BEGIN MONDAY

13 Lettermen Back This Season; Offense Looks Good, Coach Says

Fall football practice for the Yoemen is slated to get underway on Monday, August 27, according to Coach Paul Smith.

Practice periods will be held twice daily from 9 to 11 A. M. and 7 to 9 P. M. Six men on the 1950 first string will not be back this fall due to graduation last May. 13 lettermen will be back in suits when practice resumes next week.

Line coach Dick Young will be on hand to give the Yoemen thorough line instructions. Don Ross will coach the B team and Ada Henderson school.

Coach Smith said that reserved seat tickets will go on sale around August 27. He stated offensively, the Yoemen looked good for the coming season but the defense looks rather weak. He urges all the boys to be out when fall practice begins on the 27th.

Football for many years has been the favorite sport in Cameron and fans are enthusiastic for the season to get underway.

Draft Board Chairman Issues Statement Regarding Operations Of County Board

August G. Kunz, Chairman of Local Board No. 92, has made the following statements regarding the operation of our Milam County Draft Board:

"The members of this board are all conscientious hardworking citizens. We have volunteered our services as members of the local board because we feel that is our patriotic duty. It is an unpaid, thankless job that received much criticism. Our greatest satisfaction in this work sums up to two things:

1. To serve our country in an honest conscientious manner.
2. To follow Selective Service regulations to the letter and to never, under any circumstances, deviate from any rule or regulation set up by the Selective Service Act.

It is our desire that the citizens of this County know and understand our position. We want them to know the following things in particular:

1. The responsibility of putting in to operation the Selective Service Act for this county has become our duty. We are proud of having been selected for this important job. It is very important to us because it is up to us to put into effect the Selective Service Law and to determine which of your sons are eligible for draft and which are not. What is determined at the Examining Station is beyond the control of the board.

2. That we receive no pay for our work. We cannot accept pay, even so much as the price of a drink, for any of our services. There are three men on the board. There must be at least two votes before any classification is carried. No one man on the board can classify anyone.

3. We do not "send men to the Army." We carry out the regulations of the Selective Service Act, which is law. We classify men in accordance with the regulations and 1-A men are automatically subject to call when their names are reached, in order of their birth dates. If they pass the physical examination and intelligence test at the examining station, they are inducted when we reach their name in the order of their birth date, but not before 21 days from the date of notification.

Mr. and Mrs. Fuchs, owners and operators of the Ideal Hatchery instituted an egg grading program last year at the hatchery. Since that time they have handled thousands of dozens of eggs for Milam County egg producers that have been taken to the Dallas markets. Fuchs said that producers continue to make a good profit by selling their eggs through this program.

LOOK HERE

for the SERIAL NUMBER

☆ 8N-99432 ☆

Plain for all to see, easy to find and read, is the serial number of the Ford Tractor.

 It's a key identification to look for—a mighty important "birthmark" to keep track of, through the Ford Tractor's long life.

 Tractors produced by present day manufacturers leave the plants of their origin with serial numbers that are intended to identify them for life.

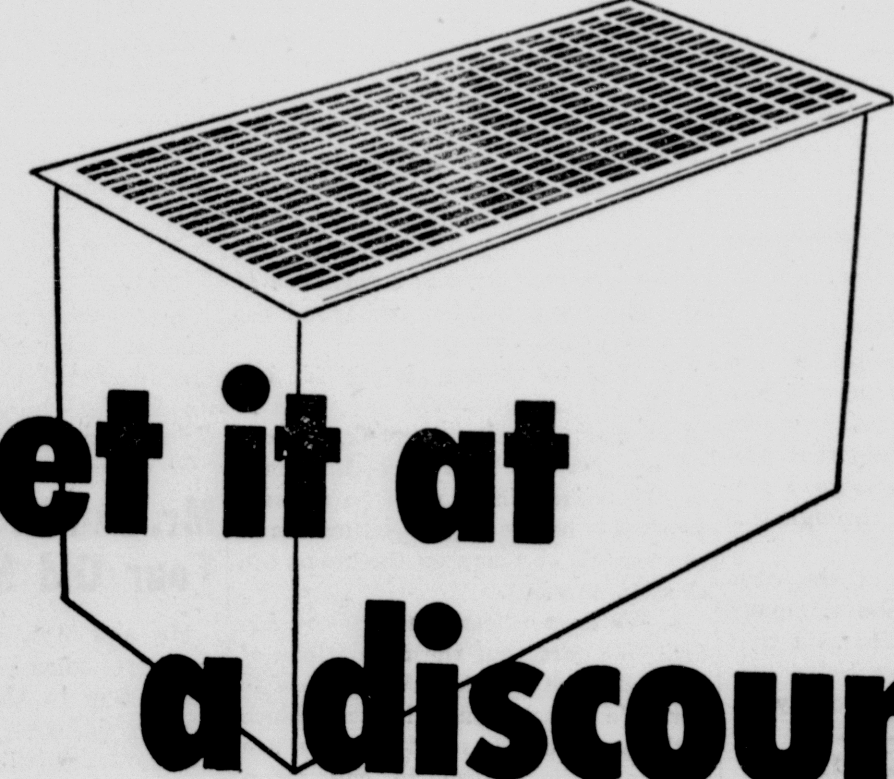

A serial number does these important things for its owner:

1. Helps establish the tractor's value, whether new or used.
2. As a general practice, it is a "vital statistic" which banks and finance companies want, before lending money on the tractor. Insurance companies want it before issuing a policy.
3. The tractor's serial number is a guide in getting replacement parts quickly, and without error.
4. The serial number is the best means of tracing and identifying a stolen tractor.
5. A serial number is a big help in defining the warranty period—valuable alike to owner and manufacturer.

Through your entire ownership of a tractor, its serial number backs your investment; is your protection and guarantee. Make sure your new tractor wears its pedigree—its serial number. We hope it will be a Ford Tractor.

The cotton crop in this area is much better than was expected. The farmers are very busy gathering the fleecy staple. There is a shortage of hands which is causing a delay with some farmers in getting their crop gathered. The Matyastik gin is running full time each day and late into the night. Rain at this time would result in considerable damage to the cotton.

Prominent Rosebud Citizen Dies; Instrumental In City's Progress

Mrs. J. L. Mullins, 92, one of Rosebud's oldest settlers died in a Rosebud Hospital 11 A. M. August 20, 1951.

Mrs. Mullins was a member of a prominent Rosebud family which has been instrumental in the progress of that city. She and her late husband at one time owned most of the land where the city of Rosebud is now located.

The Mullins' family were owners of the famous roses for which the town was named. When the postoffice was established at Rosebud, Mrs. Mullins pinned a rosebud from her rose bed on the lapel of the postmaster, Allen Taylor in the ceremony and said call the town Rosebud.

In 1950 when the new Methodist Church's dedication service was held, she had a prominent part in the dedication. She was a charter member of the Methodist Church. The Mullins family is well known over central Texas.

Funeral services were held at the First Methodist Church, 4 P. M., Tuesday, August 21 with Rev. Donald R. Box officiating.

Interment was made in Woodlawn Cemetery.

Local Farmers To Aid In National Defense Production of Vital Needs

Chief aims of farm families cooperating in the local program of the Farmers Home Administration this fiscal year, will be to bring their farms to maximum efficiency and help produce the food, feed, and fiber needed for national defense, Roy M. Wright, FHA County Supervisor said today.

A total of 103 family farmers in Milam and Burleson counties are currently using the agency's supervised credit to buy, enlarge, develop, or operate farms, or to improve inadequate housing. As a result, Wright commented, these families are now better able to raise products in short supply.

"The small farms," Wright continued, "is the greatest future source of domestic agricultural labor. Yet it is producing far below capability because land is not being effectively used and capital reserves or suitable credit is lacking. The Sparkman Committee of the United States Senate has pointed out that a million farm

families over the Nation are only a third as productive as families on well-developed and well organized family farms such as the Farmers Home Administration creates. Some of those farmers are here in this locality."

Wright explained that his job and other County Supervisors' jobs were to help borrower families arrange cropping systems that would make the best use of the land and, as far as possible, to work out programs to keep families fully employed on their farms.

"Only sound FHA loans will be made. They will be for the tools of production—such as land and building improvements, livestock, tractors, fertilizer, and other necessities."

"All loans, whether for farm operating expenses or real estate improvement, will be made to establish permanent farming systems that are balanced, sound, and efficient, and that will make full use of land and family labor."

From Casablanca to Kabul, Moslems long chaffing under great power dominance and exploitation are watching Iran's fabulous oil fields as this country makes its stand against Russia and the West alike. More important, Iran is the gateway through which the ideological and military forces of Soviet communism threaten to sweep around the flanks of the stalwart Turkish sentinels of the Middle East to Suez, Arabia, Iraq, Bahrain, Pakistan and India. March of Time's latest release, "Crisis in Iran," furnishes an exclusive background report on this hottest spot in the world. A Statement To The Public, From The Board Of Trustees, Cameron Independent School Dist.

An Election Has Been Called

County Judge Dan Tyson has called an election for Saturday, September 1st, to vote upon the proposition of consolidating the Curry Common School District with the Cameron Independent School District. The County Judge was petitioned by a number of the voters in the Curry School District and also by the voters in the Cameron Independent School District, to call this election.

A New School District Was Formed

Several weeks ago the County School Board created a new Curry Common School District when it consolidated the dormant school districts of Walkers Creek, Belmena and Vogelsang. Since there has been no schools held in these dormant districts for the past two years, the children have been attending the Cameron School. Since the passage of the Gilmer-Aiken school laws, the Cameron Independent School District has accepted transfers from the Curry District. During the school year of 1950-51 Curry had 92 white scholastics registered; 40 requested transfer to Cameron and were taught in the Cameron School. For the 1951-52 school year Curry has 135 scholastics. At the meeting of the County School Board on August 7, 1951, 73 of these were transferred to the Cameron School for the coming school session.

No Hardship On Cameron Schools

The Consolidation of the Curry District with the Cameron District will not create any hardship on the Cameron School facilities because the Cameron Schools are now taking care of most of the children in the new Curry District. If such a consolidation is ordered by the voters of the two districts, the Board of Trustees of the Cameron Schools will not close the Curry School for the school year of 1951-52. The new school year will begin within a few weeks and plans for the operation of the Curry School will not be disturbed.

No Additional School Tax

The school tax in the Cameron Independent School District is seventy five cents. This school district is one of the few in Texas operating with such a low tax. The total bonded indebtedness of the Cameron School District is \$15,000.00. This will be retired by the City of Cameron in 1954 from the city tax. The cost of administering the Cameron School is borne by the local tax payers. The Utility bills, supply bills, library, etc., is not paid out of the so called Gilmer-Aiken funds but out of the local Citizens' taxes. If the Curry District is consolidated with the Cameron District, the school tax money from these districts will be combined and all will have a part in paying for the upkeep of a school that will belong to all in both districts.

No Change In City Limits

The consolidation of the Curry Common School District with the Cameron Independent School District has no bearing on the city limits of the city of Cameron nor on the city or county or state tax rate of either school district. The consolidation of these two school districts does not increase the geographical area of Cameron; it does not bring Curry or any other territory within the Cameron City Limits.

We Believe

We believe that the consolidation of these two districts is a very progressive move. We believe that it is for the welfare of the children in both districts. We invite the people in the Curry District to join with us. We urge the voters in the Cameron District to welcome the consolidation by a large vote of confidence.

"Crisis in Iran," At Cameron Theatre Thursday and Friday

Hottest spot in the world today is Iran, where fierce nationalism has caused a crisis that can upset the world balance of power. "Crisis in Iran," the new March of Time release coming Thursday to the Cameron Theatre, is an exclusive background report on how Iran got that way.

Months ago, while the crisis was brewing, The March of Time sent Director Maurice Lancaster and a camera crew to Iran to make a film report on that potential spot. They traveled from the Caspian Sea to the Persian Gulf, filmed modern cities and primitive nomadic tribesmen, the world's latest oil refinery and the ancient ruins of vanished Persian civilizations. Now the March of Time is able to bring you the only complete background story of the peculiar economic and political conditions that have brought on the present crisis, the individuals and groups that move behind the scenes.

Politicians are shown arguing furiously over nationalizing in the Majlis, Iran's parliament; fanatic nationalist groups holding mass meetings; troops patrolling the oil fields to prevent riots; British residents under constant armed escort. Also seen are the beautiful Princess Ashraf, sister of the young, uncrowned Shah and reputedly a power behind the throne; and intense, dedicated Prime Minister Mossadeq.

Don't miss the inside story of the most dangerous crisis in today's world.

Mr. and Mrs. Albert Boysen, Albert Jr., and Mrs. Annie Ledge of Houston visited Mr. and Mrs. A. H. Halberdier and Mrs. Mary Bailey.

Mr. and Mrs. Bennie Salach have returned to their home in Beaumont after visiting his father, Steve Salach Sr., who has been seriously ill. His many friends will be glad to know that he is improving.

Mr. and Mrs. Henry McFarland and sons, Clifford and Henry Coleman of Dallas have been visiting his mother, Mrs. Minnie McFarland here. They left Sunday to visit Mrs. McFarland's mother and sister in Bryan before returning to their home in Dallas.

JAMES M. FLOYD

Funeral services were held in Fort Worth Monday for James M. Floyd of Dallas, advertising director for Lone Star Gas Company, widely known attorney and leader in community affairs dedicated to human welfare. Mr. Floyd was 50 years of age on April 29.

Mr. Floyd died Friday afternoon at his Dallas home, 4629 Watauga Road, after being stricken suddenly on Thursday night while dining with friends.

"In the death of James M. Floyd we have lost a man thoroughly capable of meeting all responsibilities that came his way," said Lone Star President D. A. Huley. "Jim Floyd's aim was to be of service to his fellow man and he projected this attribute in his business, his church, his social and community affairs. He entered into all his activities with eagerness and enthusiasm and was the exemplification of a Christian Gentleman, never too busy to help a friend. He was a credit to the industry which he served and he shall be sorely missed by his many friends and associates."

The funeral services were held at the First Methodist Church in Fort Worth where for many years Mr. Floyd had been an active member and teacher of a young married couples class. IT'S A FIREBALL ENGINE

You can Beat the Bushes - but you can't Beat this

If you want to know why shrewd car shoppers are saying "Smart Buy's Buick," take a look at this.

It's the new Buick SPECIAL 2-door, 6-passenger Sedan—and it's roomier than most 4-door sedans, higher-powered than many costlier cars—and priced, as you'll discover, right down near the lowest.

Now, we ask you: where can you beat it for the money?

Can you beat this beauty on looks and style and rich bearing in any other car near its price?

Can you match, at the same money, the big power of its valve-in-head Fireball Engine (128 hp with Dynaflo Drive*)—or the big miles-per-gallon figure it delivers with such thrills?

Can you equal this traveler's roominess in any other car of comparable cost—get full-size headroom, legroom and hip-room both front and rear in any other 2-door automobile?

Can you come even near the gentle levelness of its ride and the solid steadiness of its going—have coil springs on all four wheels and a torque-tube keel beneath you—except in another Buick?

And where can you top the restful ease and luxurious smoothness of this sweetheart's Dynaflo Drive* in any other automobile at any price?

The answers, from a lot of

certain-sure folks, sum up to a great big, "YOU CAN'T!" But why take anyone else's word for it?

Come in and get your own answers. Look over this bed-rock-priced Buick—compare it with any other automobile at the same money—and you'll agree you can't beat this smartest of buys.

NO OTHER CAR PROVIDES ALL THIS:

DYNAFLO DRIVE* • FIREBALL ENGINE
PUSH-BAR FOREFRONT • WHITE-GLOW INSTRUMENTS • 4-WHEEL COIL SPRING
TORQUE-TUBE DRIVE • DUAL VENTILATION
DREAMLINE STYLING • BODY BY FISHER

Low of 90 Degrees Registered Sunday; High Winds Reported At Rockdale

The current heat wave was interrupted with light showers late Saturday and Sunday in the immediate and surrounding areas.

According to L. W. Smith, official weatherman, Cameron has received .01 of an inch of rain during the past thirty six hours. Temple and Waco received slightly more than Cameron, according to reports.

The hurricane raging in the Gulf with winds up to 130 miles per hour struck the coast of Mexico Sunday night leaving 98 persons dead, scores injured and thousands homeless. At Miami, Florida the wind was blowing at a velocity of 110 miles per hour. Jamaica was the worst hit island in the gulf where most of the damage occurred.

The temperature registered a high of 90 Sunday as the showers had cooled the parched earth. High winds struck Rockdale late Saturday afternoon, uprooting trees and blew down a shed and a garage, according to Byron Neal, commissioner of Pre-

cinct 3.

Ranchers were highly optimistic over the possibility of more rain for their pastures and stock water. Cotton farmers, however would like to see more dry weather now since the cotton fields are white.

On the whole most farmers would welcome a good general rain. The migratory laborers are coming in now and the labor shed is ready. Farmers in this area are in need of cotton pickers to harvest the crop.
